ROCKETXRP OFFICIAL

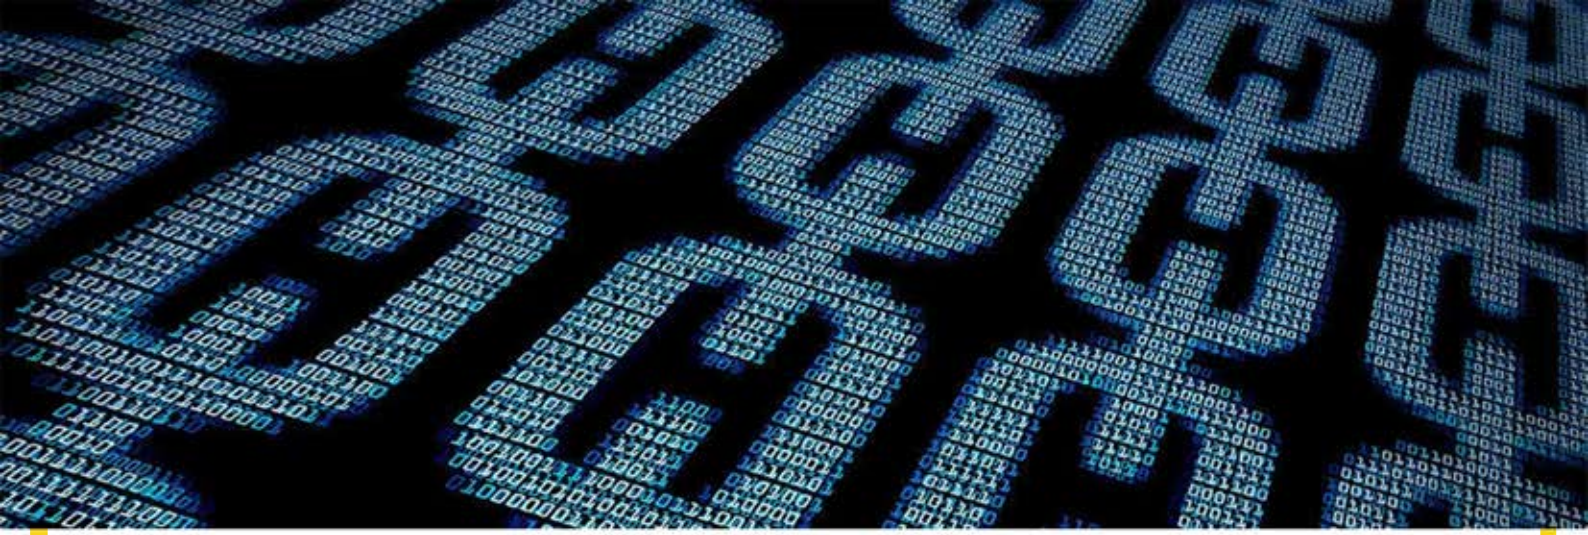

AN XRP REWARD TOKEN ON BSC

XRP is the most undervalued cryptocurrency that exist in the market.

Fast and green, the digital asset XRP was built to be the most practical cryptocurrency for applications across the financial services space. Companies, institutions, developers and individuals around the world use XRP and the blockchain on which it runs, the XRP Ledger (XRPL), because of its extraordinary utility.

RocketXRP (\$RX0) hopes to help grow XRP and its price by providing a 5% reward to its holders in Binance-pegged XRP. Every transaction of RocketXRP is taxed, with part of that tax being used to purchase XRP which is distributed based on the percentage of RocketXRP (\$RX0) held.

RXO MULTI-CHAIN BRIDGE

RocketXRP Official's Multi-chain Bridge will allow users to buy our Token (\$RXO) directly using 13 of the most popular blockchains on the market.

Users will be able to immediately use Ethereum, Matic, Moonriver, Solana...ect to purchase our token.

No more going to 3rd party bridges to transfer your blockchain to bnb. It will handle all transactions required to make that change using our system.

Future plans to also have a secondary Bridge that will be open sourced to be able to change to any of the 13 blockchains users wouldlike to switch to.

A small fee of under 1% will be collected to help grow RocketXRP by utilizing those funds to do buybacks and burns to slowly raise the price of the token.

RocketXrp also plans to have another bridge built to easily swap BNB to XRP.

INTEGRATION INTO XRP LEDGER WITH ROCKETXRP OFFICIAL NFT'S

RocketXRP will launch NFTs on the XRP Blockchain
By doing so RocketXrp will be able to integrate the
Binance Smart Chain, and XRP (Ripple) ecosystems
together.

NFTs will be randomly generated with different traits
and rarities.

Owners of the NFT's can then choose to stake, to earn
\$XRP (Ripple) depending on the rarity.

Special NFT's that have other unique rewards
(undisclosed at this time) will also be produced and
sold,

Proceeds from the NFTs will go towards Buybacks &
Burns, Marketing, Contest, and Future Development.

RXOGAMING

With XRP looking at growing into the \$300 Billion gaming industry, RocketXRP will also be focused on the Play 2 Earn games. Will launch with the ability to play Peer-2-Peer, Multi-Player and Tournament mode. Players will have a chance at competing for prizes of \$RXO or XRP tokens.

You will need to be a holder of a set amount \$RXO tokens to participate.

Any proceeds from the game will be used for Buybacks & Burns to further eliminate the remaining supply of RocketXRP (\$RXO).

ROCKETXRP ROADMAP

Q2 2022

- Create Telegram
- Contract development
- Launch on PancakeSwap
- Design Whitepaper and Website
 - Socials
 - Marketing
- RocketXRP Multichain Bridge
 - Logo for BSCScan.com

Q2/Q3 2022

- Influencer Shoutouts
- Listing in CoinGecko
 - CERTIK Audit
- Launch of RocketXrp Official Merch Store
 - Listing in CoinMarketCap
 - Logo for Web3 Wallets
- Establishing WeeklyTournaments
- Giving Back to the Community

Q3/Q4 2022

- ROCKETXRP NFT's
 - Heavy Marketing
- Logo for Web3 Wallets
 - NFT Staking

Q1/Q2 2023

- Expanding Development Team
- Development of Play2Win Games
 - Exchange Listings
- Extending the Roadmap
